Min. Tensile Strength (psi):

8600 pounds per square inch

Width:

48.000 inches

Thickness:

0.060 inches

Length:

24.000 inches

Material Transparency:

Clear

End Application:

Cwiu sru tps

Special Features:

Mat'l is uv stabilized

Color:

Clear both sides

Material:

Plastic, polycarbonate

Material:

Plastic polycarbonate

Specification Data:

81349-mil-p-46144c government specification

Specification Or Standard:

1 type and 1 class and a grade and n color and a length and m thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
