**Width:**

36.000 inches

**Thickness:**

2.000 inches

**Length:**

36.000 inches

**Strengthening Feature Material:**

Glass fabric

**Strengthening Feature:**

Internally molded-in reinforcement

**Special Features:**

Aircraft, b-2 bomber (atb); mat'l is polyetherimide; 30% level for glass reinforcement; 1 gal/10 min. Flow rate; 200 degress celsius min.

Deflection temp

**Material:**

Plastic

**Material:**

Plastic

**Specification Data:**

81346-astm d 5205 professional/industrial association specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
