**Width:**

14.480 inches

**Thickness:**

0.375 inches

**Length:**

67.050 inches

**End Application:**

Aircraft, b-2 bomber (atb)

**Special Features:**

Item is fire-resistant and is used on protective device, mlg door blade seals, fwd; color is to be a close match to fed-std-595, color 11302

**Color:**

Red both sides

**Material:**

Plastic, acrylonitrile-butadiene-styrene

**Material:**

Plastic acrylonitrile-butadiene-styrene (abs)

**Specification Data:**

81346-astm-d4673-98 professional/industrial association standard

**Specification Or Standard:**

11302 color

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
