Cross Sectional Shape:

Circular

Length:

0.3125 inches

Surface Condition:

Smooth both sides

Cross Section Outside Diameter:

1.375 inches

End Application:

Aircraft, b-2 bomber (atb)

Special Features:

Item is fire-resistant and used on protective device, crew entry door, red color is to be close match to fed-std-595, color 11302

Color:

Red both sides

Material:

Plastic, acrylonitrile-butadiene-styrene

Material:

Plastic acrylonitrile-butadiene-styrene (abs)

Specification Data:

81346-astm-d4673-98 professional/industrial association standard

Specification Or Standard:

11302 color

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
