Width:

36.000 inches

Thickness:

1.750 inches

Length:

36.000 inches

End Application:

Los angeles class ssn (688)

Special Features:

This rubber sheet is used to fabricate part number 39: spherical bearing grease plug - a curved section with inside diameter of 4.938 and outside diameter of 5.386 inches and 4.120 inches long with 3 holes 0.20 inches through for part number 40; see drawing for further details

Material:

Plastic, vinyl chloride

Material:

Plastic polyvinyl chloride

Specification Data:

81346-astm-d4020 professional/industrial association standard

Specification Or Standard:

-uhm-pe type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
