Special Features:

980 bagging film, heat stabilized nylon, clear; produced from modified nylon resin used for transparency laminating, advanced composite fabrication and other hi temp applications where dimensional stability/pinholing resistance is essential; cure cycle up to 400 degrees f; 15000 psi tensile; custom sized to fit any thickness from 0.002 to 0.005 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
