Cross Sectional Shape:

Circular

Fabrication Method:

Extruded

Length:

1.750 inches

Surface Condition:

Smooth both sides

Cross Section Outside Diameter:

0.047 inches

End Application:

An/src-5 (v) hydra cvn74 main site cabinets

Product Name:

Inavy: plastic extrusion; dwg: extrusion, plastic

Special Features:

Matl: extruded nylon copolymer; item is bent into horseshoe shape: 0.375 in. High, 0.125 in. Inside dia, 0.100 in. Distance between legs

Material:

Plastic, copolymer

Material:

Plastic

Supplementary Features:

Drawing was sent by cage 1pnr4 (ma/com) but says general electric on it

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A26800
