Fabrication Method:

Skived

Min. Tensile Strength (psi):

2800 pounds per square inch

Thickness:

0.125 inches

End Application:

Fuselage, f4f jet aircraft

Product Name:

Ptfe resin skived tape

Special Features:

Manufactured from ptfe resin molding and extruding materials; type is general purpose for electrical, mechanical and chemical applications not requiring premium materials; grade can be reprocessed resin or a mix of virgin and reprocessed resin; each roll of tape shall be marked with name of material, type, size and quantity contained within

Material:

Plastic, polytetrafluoroethylene

Material:

Plastic polytetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
