Overall Diameter:

Between 2.375 inches and 2.380 inches

Overall Thickness:

0.500 inches

Environmental Protection:

Any acceptable

Material Transparency:

Clear

Edge Type:

Beveled

Special Features:

Held by retaining ring, 45.0 degrees chamfer 0.180 in. Dp on edge

Material:

Glass plate

Material Specification:

Dd-g-451 federal specification single material response

Style Designator:

Circular

Specification Or Standard:

A type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15000

Mil-std (military Standard):

Mil-g-2697 spec.
