Overall Length:

26.000 inches

Overall Width:

28.000 inches

Material Transparency:

Clear

Features Provided:

Frame

Insulating Air Space Material Arrangement:

Plastic to glass

Special Features:

With 15 11/16in diameter hole in center of panel

Material:

Glass laminate

Material Specification:

Mil-g-8602 military specification single material response

Style Designator:

Square corners

Reference Number Differentiating Characteristics:

Magnetic permeability shall not exceed 2.0 after fabrication

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15000

Mil-std (military Standard):

Mil-g-8602 spec.
