Overall Length:

49.000 inches

Overall Diameter:

0.750 inches

Material Transparency:

Clear

Special Features:

Naval nuclear propulsion program; material will be in accordance with ships parts control center, activity hx, quality control, manufacturing and testing specification.

Material:

Glass

Style Designator:

Tubing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15000
