Overall Length:

34.250 inches

Overall Width:

18.500 inches

End Application:

Cv aircraft carrier

Material Transparency:

Clear

Product Name:

Window, nonicing elec conducting

Special Features:

Electrically heated; length of top of window is 24.500 in; shape is trapezoidal with exception that from bottom edge along both sides, there is a 2-inch high edge which forms 90-degree bottom edge corners, making this a six-sided figure

Material:

Glass laminate

Style Designator:

Trapezoid w/square corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A15000
