Unit Package Type:

Bag

Application Type:

Wet

Content Within Each Unit Package:

100 lb

Component Material:

Caustic, alkali and alumina and calcium oxide and iron oxide and magnesium oxide and silica

Setting Type:

Air

Maximum Temperature For Which Designed:

2900.0 degrees fahrenheit

Special Features:

Dry form

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T347-b
