Unit Package Type:

Bag

Application Type:

Wet

Content Within Each Unit Package:

100 lb

Component Material:

Magnesium oxide and aluminum oxide and silicon and titanium oxide and iron oxide and calcium oxide and boron

Setting Type:

Hydraulic

Maximum Temperature For Which Designed:

3200.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T347-b
