Cross Sectional Shape:

Hollow core, cushion seal

Nonmetallic Hardness Rating:

50.0 shore durometer a

Min. Tensile Strength (psi):

900 pounds per square inch

Overall Height:

0.550 inches

Overall Width:

0.600 inches

Environmental Protection:

Tear resistant and low temperature and high temperature and ozone resistant and wear resistant

Special Features:

Color gray or white

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A547d0
