Cross Sectional Shape:

Hollow core, cushion seal

Nonmetallic Hardness Rating:

60.0 shore durometer

Min. Tensile Strength (psi):

1100 pounds per square inch

Overall Height:

0.405 inches

Overall Width:

0.812 inches

Environmental Protection:

Fuel resistant and fluid resistant

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A547d0
