Nonmetallic Hardness Rating:

115.0 rockwell r

Min. Tensile Strength (psi):

11000 pounds per square inch

Diameter:

1.500 inches

Length:

48.000 inches

Environmental Protection:

Any acceptable

Material:

Plastic, polyamide, monomer cast, I-p-410

Material:

Plastic polyamide

Material Specification:

L-p-410 federal specification single material response

Specification Or Standard:

Monomer cast, /nylon 6/ composition

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14500
