Min. Tensile Strength (psi):

1500 pounds per square inch

Diameter:

2.500 inches

Length:

48.000 inches

Environmental Protection:

Any acceptable

Material:

Plastic, tfe, fluorocarbon, l-p-403, type 1

Material:

Plastic polytetrafluoroethylene

Material Specification:

L-p-403, type 1 federal specification single material response

Specification Or Standard:

C group

Departure From Cited Document:

As modified by tensile strength and diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14500
