Min. Tensile Strength (psi):

1500 pounds per square inch

Tempurature Rating:

260.0 degrees celsius

Diameter:

1.750 inches

Length:

36.000 inches

Environmental Protection:

High temperature

Material:

Plastic, ams 3651

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Specification Or Standard:

1 grade and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14500

Mil-std (military Standard):

Mil-p-19468 spec.
