Temperature Rating:

70.0 degrees celsius

Thickness:

0.062 inches

Environmental Protection:

Ozone resistant

End Application:

M551 vehicle family

Large End Outside Diameter:

4.438 inches

Small End Outside Diameter:

1.875 inches

Large End Inside Diameter:

4.062 inches

Small End Inside Diameter:

1.500 inches

Neutral Length:

6.167 inches

Min. Tensile Strength (psi):

2180.661 pounds per square inch

Special Features:

Small end shoulder has 0.0625 hole 1.750 from c/l

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539z0
