**Min. Tensile Strength (psi):**

1500 pounds per square inch

**Diameter:**

1.500 inches

**Environmental Protection:**

Any acceptable

**Material:**

Plastic, tfe, fluorocarbon, l-p-403, type 1

**Material:**

Plastic polytetrafluoroethylene

**Material Specification:**

L-p-403, type 1 federal specification single material response

**Specification Or Standard:**

1 grade and i type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A14500

**Mil-std (military Standard):**

Mil-p-19468 spec.
