**Min. Tensile Strength (psi):**

11000 pounds per square inch

**Diameter:**

0.562 inches

**Environmental Protection:**

Any acceptable

**Special Features:**

Without fillers; natural

**Material:**

Plastic, polyamide, polyhexamethylene adipamide, I-p-410

**Material:**

Plastic polyhexamethylene adipamide

**Material Specification:**

L-p-410 federal specification single material response

**Reference Number Differentiating Characteristics:**

As differentiated by length and diameter

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A14500
