## NSN 9390-01-102-4142

Nonmetallic Rod - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9390-01-102-4142

Min. Tensile Strength (psi):
11000 pounds per square inch
Diameter:
0.562 inches
Environmental Protection:
Any acceptable
Special Features:
Without fillers; natural
Material:
Plastic, polyamide, polyhexamethylene adipamide, I-p-410
Material:
Plastic polyhexamethylene adipamide
Material Specification:
L-p-410 federal specification single material response
Reference Number Differentiating Characteristics:
As differentiated by length and diameter
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A14500
