Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

2000 pounds per square inch

Diameter:

1.250 inches

Length:

120.000 inches

Environmental Protection:

Any acceptable

Special Features:

10 ft length

Material:

Plastic, polytetrafluoroethylene, astm d1710, type 1, grade 1

Material:

Plastic, polytetrafluoroethylene, astm d1710, type 1, grade 1

Specification Data:

81346-astm d1710 professional/industrial association standard

Specification Or Standard:

1 grade and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14500

Mil-std (military Standard):

Mil-p-19468 spec.
