Overall Length:

56.000 inches

Overall Height:

10.000 inches

Overall Width:

56.000 inches

End Application:

Containment corporation spill containment systems contain-it plus

Mounting Configuration:

Tie-down grommets around bottom perimeter at 1 ft centers for cinch closure

Special Features:

5 plies of high density polyethylene and nylon yarn laminate; reinforcement of 2 non-woven grids of high strength nylon cord diamond patterned to provide uniform loading resistance of no less than 1380 pounds per yard in all directions; yarn is suspended in a permanently flexible media to allow fiber slippage; uv stabilized, cold-crack resistant and waterproof to withstand extended exposure to adverse weather; chemical resistance and low permeability to provide protection; flexible and lightweight for ease in handling; with protected clear pouch for contents identification without lifting cover

Material:

Plastic polyethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
