Nonmetallic Hardness Rating:

118.0 rockwell r

Min. Tensile Strength (psi):

13000 pounds per square inch

Diameter:

4.500 inches

Environmental Protection:

Abrasion resistant

Special Features:

Natural light cream

Material:

Plastic, polyamide, polyhexamethylene adipamide, I-p-410

Material:

Plastic polyhexamethylene adipamide

Material Specification:

L-p-410 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14500
