Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Overall Width:

1.188 inches

Length:

1.188 inches

Environmental Protection:

Any acceptable

Inside Radius:

0.281 inches

Physical Form:

Solid

Outside Radius:

0.344 inches

First Slot/groove Width:

0.250 inches

First/top Flange Thickness:

0.500 inches

Second Flange Thickness:

0.250 inches

Cross Sectional Shape:

C332

Special Features:

7mat'l is neoprene rubber; shore susrometer harness: min 55, maximum 60; this item is not perfectly "round" - the cross sectional height is only 1.066 in.; also, the location of the slit in the cross section is rotated 90 degrees from the style drawing

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
