Nonmetallic Hardness Rating:

118.0 rockwell r

Min. Tensile Strength (psi):

12000 pounds per square inch

Tempurature Rating:

250.0 degrees celsius

Diameter:

0.300 inches

Length:

0.750 inches

Environmental Protection:

Alcohol resistant and fire resistant or grease and oil resistant

End Application:

Los angeles class ss (688) ; mechanical ha

Physical Form:

Solid

Material:

Plastic, polyamide

Material:

Plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
