Nonmetallic Hardness Rating:

50.0 shore durometer

Overall Width:

0.600 inches

Environmental Protection:

Weather resistant

End Application:

Shield assembly; f/18a aircraft

Physical Form:

Solid

First Slot/groove Depth:

0.400 inches

Outside Radius:

0.100 inches

First Slot/groove Width:

0.050 inches

Product Name:

Dwg: rubber special shaped section - extruded/molded

Special Features:

Material is chloroprene rubber per ams 3208

Material:

Rubber chloroprene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A547c0
