Surface Luster:

Matte

End Application:

Helicopters

Width:

6.000 inches

Length:

36.0 yards

Temperature Rating:

135.0 degrees celsius

Nominal thickness:

0.0280 inches

Adhesive Location:

One side

Product Name:

Cage: 3m polyurethane protective tape 8667hs, transparent, 6 in x 36 yd, 1 per case

Special Features:

Polyurethane tape with high shear acrylic adhesive; typically used for protecting helicopter rotor blades and aircraft leading edges from sand and rain erosion

Color:

Colorless

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14300
