Surface Luster:

Matte

Environmental Protection:

Abrasion resistant; ultraviolet light resistant; weather resistant

End Application:

Eh101 helicopter

Width:

2.500 inches

Length:

36.0 yards

Features Provided:

Liner

Min. Tensile Strength (psi):

20 pounds per square inch

Nominal thickness:

0.0060 inches

Adhesive Location:

One side

Product Name:

Polyurethane protective tape, 8664hs matte black

Special Features:

High shear; made from abrasion-resistant polyurethane elastomer that resists punctures, tearing and erosion; has long lasting, solvent-resistant, pressure-sensitive acrylic adhesive protected w/easy release poly liner; can be painted or applied over paint

Color:

Black

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
