Length:

Between 10.000 feet and 12.000 feet

Basic Shape Style:

Hexagon

Cross-sectional Width Across Flats:

0.312 inches

Weight Per Unit Measure:

0.288 pounds per linear foot

Heat Treatment:

Stress relieved

Material:

Steel, qq-s-637, comp 1212

Material:

Steel comp 1212

Material Specification:

Qq-s-637, comp 1212 federal specification single material response

Surface Condition:

Cold finished

Specification Or Standard:

1212 composition and cdandsr condition and hex form

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
