## Length:

Between 10.000 feet and 12.000 feet

## Basic Shape Style:

Hexagon
Cross-sectional Width Across Flats:
0.312 inches

Weight Per Unit Measure:
0.288 pounds per linear foot

Heat Treatment:
Stress relieved

## Material:

Steel, qq-s-637, comp 1212

## Material:

Steel comp 1212

## Material Specification:

Qq-s-637, comp 1212 federal specification single material response
Surface Condition:
Cold finished
Specification Or Standard:
1212 composition and cdandsr condition and hex form
Shelf Life:
N/a
Unit Of Measure:

## Demilitarization:

No
Fiig:
A13100
