Fabrication	n Method:
Hot rolled	in method.
Length:	
_	.000 feet and 12.000 feet
	tion Outside Diameter:
2.750 inche	
Basic Shap	
Round	pe otyle.
	r Unit Measure:
_	ands per linear foot
Material:	inus per imear toot
Steel, astm	n a575, grade 1010 and steel, astm a575, grade 1012 and steel, astm a575, grade 1015 and steel, astm a575, grade 1017 astm a575, grade 1020
Material:	
Steel comp	1010 and steel comp 1012 and steel comp 1015 and steel comp 1017 and steel comp 1020
Material Sp	pecification:
Astm a575,	, grade 1010 assn standard 1st material response and astm a575, grade 1012 assn standard 2nd material response and astm
a575, grad	le 1015 assn standard 3rd material response and astm a575, grade 1017 assn standard 4th material response and astm a575
grade 1020	assn standard 5th material response
Specificati	ion Or Standard:
1010 comp	osition and 1012 composition and 1015 composition and 1016 composition and 1017 composition and 1018 composition and
1020 comp	osition
Shelf Life:	
N/a	
Unit Of Me	easure:
Demilitariz	zation:
No	
Fiig:
