| Fabrication Method:                 |
|-------------------------------------|
| Cold rolled                         |
| Length:                             |
| Between 10.000 feet and 12.000 feet |
| Cross-sectional Thickness:          |
| 0.6250 inches                       |
| Cross-sectional Width:              |
| 1.000 inches                        |
| Basic Shape Style:                  |
| Flat                                |
| Weight Per Unit Measure:            |
| 2.125 pounds per linear foot        |
| Heat Treatment:                     |
| As fabricated                       |
| Material:                           |
| Steel, astm a108, comp 1020         |
| Material:                           |
| Steel, astm a108, comp 1020         |
| Specification Or Standard:          |
| 1020 grade                          |
| Shelf Life:                         |
| N/a                                 |
| Unit Of Measure:                    |
|                                     |
| Demilitarization:                   |
| No                                  |
| Fiig:                               |
| A13100                              |
|                                     |
|                                     |
|                                     |
|                                     |
