Fabrication Method:

Cold drawn

Length:

Between 10.000 feet and 12.000 feet

Basic Shape Style:

Hexagon

Cross-sectional Width Across Flats:

0.937 inches

Weight Per Unit Measure:

2.590 pounds per linear foot

Heat Treatment:

Normalized and tempered

Material:

Steel, ams 6484, alloy 4340

Material:

Steel, ams 6484, alloy 4340

Specification Or Standard:

Alloy 4340 and normalized and tempered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
