Fabrication Method:

Rolled

Length:

20.000 feet

Cross-sectional Thickness:

0.3750 inches

Cross-sectional Width:

8.000 inches

Basic Shape Style:

Flat

Material:

Steel, astm a36

Material:

Steel uns k02600

Material Specification:

Astm a36 assn standard 1st material response

Specification Data:

81348-qq-s-741/canceled/ government specification

Specification Or Standard:

Flt shape

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
