Fabrication Method:
Cold finish
Length:
3.000 feet
Cross-sectional Thickness:
2.5000 inches
Cross-sectional Width:
3.000 inches
Basic Shape Style:
Flat

Heat Treatment:

Weight Per Unit Measure: 25.500 pounds per linear foot

Annealed

Material:

Steel, corrosion resisting, msfc-145, class 316

Material:

Steel, corrosion resisting, msfc-145, class 316

Specification Or Standard:

316 class and flat form and ff condition

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A13100
