**Fabrication Method:**

Hot rolled

**Length:**

12.000 feet

**Cross-sectional Thickness:**

0.1250 inches

**Cross-sectional Width:**

1.125 inches

**Basic Shape Style:**

Flat

**Weight Per Unit Measure:**

0.480 pounds per linear foot

**Heat Treatment:**

Intermediate temper

**Material:**

Steel, astm a582, type 416

**Material:**

Steel, astm a582, type 416

**Surface Condition:**

Pickled

**Specification Or Standard:**

Composition 416 and intermediate temper

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A13100
