Fabrication	on Method:
Cold finisl	h
Length:	
Between	5.000 feet and 20.000 feet
Cross Se	ction Outside Diameter:
0.625 incl	nes
Basic Sh	ape Style:
Round	
Weight P	er Unit Measure:
1.093 pou	unds per linear foot
Material:	
Steel, as	tm a108, grade 1010 or steel, astm a108, grade 1015 or steel, astm a108, grade 1016 or steel, astm a108, grade 1018 or
steel, ast	m a108, grade 1020 or steel, astm a108, grade 1022
Material:	
Steel com	p 1010 or steel comp 1015 or steel comp 1016 or steel comp 1018 or steel comp 1020 or steel comp 1022
Material S	Specification:
Astm a10	8, grade 1010 assn standard 1st material response and astm a108, grade 1015 assn standard 2nd material response and astm
a108, gra	ade 1016 assn standard 3rd material response and astm a108, grade 1018 assn standard 4th material response and astm a108,
grade 102	20 assn standard 5th material response and astm a108, grade 1022 assn standard 6th material response
Specifica	ition Or Standard:
1010 com	position and 1012 composition and 1015 composition and 1016 composition and 1017 composition and 1018 composition and
1019 com	position and 1020 composition and 1021 composition and 1022 composition and 1023 composition and 1024 composition and cf
condition	and rd form
