Fabrication Method:

Hot rolled

Length:

12.000 feet

Cross-sectional Thickness:

0.6250 inches

Cross-sectional Width:

6.000 inches

Basic Shape Style:

Flat

Edge Type:

Any acceptable

Weight Per Unit Measure:

Any acceptable

Heat Treatment:

Quenched and tempered

Material:

Steel, mil-s-16216, grade hy80

Material:

Steel, mil-s-16216, grade hy80

Surface Condition:

Descaled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
