Fabrication Method:

Hot rolled or extruded

Length:

144.000 inches

Cross-sectional Thickness:

0.2500 inches

Cross-sectional Width:

4.250 inches

End Application:

4920-01-272-5962

Basic Shape Style:

Flat

Special Features:

Wsd is sot equipment (se), b-2 bomber; if necessary, mat'l may be drawn or cold finished; 100 ksi tensile strength; 52.0 ksi yield strength

Heat Treatment:

Annealed

Material:

Aluminum bronze 4640-81343

Material:

Aluminum bronze 4640-81343

Specification Data:

81343-ams 4640f professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
