Fabrication Method:

Cold finish

Length:

38.000 inches

Cross-sectional Thickness:

2.1870 inches

Cross-sectional Width:

4.190 inches

End Application:

2320-01-354-3384

Basic Shape Style:

Flat

Special Features:

All edges are beveled 45 degrees 1st drilled hole is 1.440 dia. 2nd and 3rd drilled holes are 1.380 dia

Material:

Steel, astm a108, grade 1018 or steel, astm a514

Material:

Steel comp 1018 or steel, astm a514

Material Specification:

Astm a108, grade 1018 assn standard 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
