Fabrication Method:

Rolled

Width:

48.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.0635 inches

Basic Shape Style:

Solid

Edge Type:

Sheared

Weight Per Unit Measure:

2.656 pounds per square foot

Coating Weight:

1.250 ounces per square foot

Heat Treatment:

As fabricated

Material:

Steel, astm a653, type a

Material:

Steel, astm a653, type a

Surface Treatment:

Zinc

Surface Treatment:

Zinc

Specification Or Standard:

Type a, lock forming quality, g90 designation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
