**Fabrication Method:**

Hot rolled

**Width:**

36.000 inches

**Length:**

8.000 feet

**Cross-sectional Thickness:**

0.0217 inches

**Basic Shape Style:**

Solid

**Edge Type:**

Sheared

**Weight Per Unit Measure:**

0.906 pounds per square foot

**Coating Weight:**

1.250 ounces per square foot

**Heat Treatment:**

As fabricated

**Material:**

Steel, astm a653, type a

**Material:**

Steel, astm a653, commercial quality, type a/b

**Surface Treatment:**

Zinc

**Surface Treatment:**

Zinc

**Specification Or Standard:**

Type a/b, commercial quality, g90 designation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A13100
