Fabrication Method:

Hot rolled

Width:

36.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.0217 inches

Basic Shape Style:

Solid

Edge Type:

Sheared

Weight Per Unit Measure:

0.906 pounds per square foot

Coating Weight:

1.250 ounces per square foot

Heat Treatment:

As fabricated

Material:

Steel, astm a653, type a

Material:

Steel, astm a653, commercial quality, type a/b

Surface Treatment:

Zinc

Surface Treatment:

Zinc

Specification Or Standard:

Type a/b, commercial quality, g90 designation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
