Fabrication Method:

Wrought

Width:

1.248 inches

Length:

10.490 inches

Cross-sectional Thickness:

0.2490 inches

Basic Shape Style:

Solid

Special Features:

Used on 101503229728

Heat Treatment:

Tempered

Material:

Copper alloy bar, no. 353, astm-b121

Material:

Copper alloy bar, no. 353, astm-b121

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
