Fabrication Method:

Rolled

Width:

20.000 inches

Length:

3.333 feet

Cross-sectional Thickness:

0.6875 inches

Basic Shape Style:

Solid

Edge Type:

Sheared

Weight Per Unit Measure:

28.050 pounds per square foot

Heat Treatment:

Quenched and tempered

Material:

Steel, mil-s-16216, grade hy80

Material:

Steel, mil-s-16216, grade hy80

Surface Condition:

Descaled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
