Fabrication Method:

Rolled

Width:

36.000 inches

Length:

6.500 feet

Cross-sectional Thickness:

0.9375 inches

Basic Shape Style:

Solid

Edge Type:

Sheared

Weight Per Unit Measure:

38.250 pounds per square foot

Heat Treatment:

Quenched and tempered

Material:

Steel, mil-s-16216, grade hy80

Material:

Steel, mil-s-16216, grade hy80

Surface Condition:

Descaled

Specification Or Standard:

li type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
