Fabrication Method:

Rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

2.0000 inches

Basic Shape Style:

Solid

Weight Per Unit Measure:

81.600 pounds per square foot

Heat Treatment:

Annealed

Material:

Steel, qq-s-626, comp 4340

Material:

Steel comp 4340

Material Specification:

Qq-s-626, comp 4340 federal specification 1st material response

Specification Or Standard:

2 condition and a form and dge3 series and a finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
